

Dear parents and caregivers,

If your student needs a user name and password to access BCPS One, please email me at lprecht@bcps.org or reply to this message. I can also supply the student ID number that is needed for accessing the Baltimore County Public Library's website.

BCPS One is loaded with links to many educational and fun websites that have been approved by the county and are safe for students to get on.

On the Digital Content tile:

- Baltimore County Public Library (eBooks, audiobooks, and videos)
- BrainPop (educational videos and activities)
- Destiny (eBooks)
- PebbleGo (educational articles and activities)
- Safari Montage (videos)
- TumbleBooks (eBooks, audiobooks, and videos)
- World Book Encyclopedia (educational articles and videos)
- and more!

On the Instructional and Productivity tile:

- Wixie (creativity tool)
- EduTyping (keyboard typing practice)
- Dreambox
- and more!

On the Schoology tile:

- Messaging (your student can message any teacher! Look for the envelope on the toolbar)
- Courses (your student can access coursework)
- Grades
- and more!

While school is out, I encourage your student to explore these many options. It is not a requirement at this time (March 22, 2020), but it will help keep reading and math skills sharp and it's a great way for your student to feel connected to our school community.

Also, I am posting activities for kids through the BCPS One messaging system. Please ask your student to check the inbox (the envelope on the toolbar in Schoology) often! I am happy to reply to any questions or comments that they have.

Thank you.

Laurie Precht
