TrackIt! Mobile: Add a Book

The screenshot shows a mobile application interface for adding a book. At the top, there is a dark blue header with a white back arrow and the text 'Back' on the left, and 'Add a Book' in the center. Below the header, the form is light gray. It starts with the label 'Select a title' followed by a dark blue dropdown menu with the text 'Select a title...' and a white downward arrow. Below this is the text 'Or enter your own title' followed by a light gray text input field with the placeholder 'Enter your own title...'. The next section is labeled 'Date' and has a light gray date input field showing 'Apr 1, 2014'. Below that is the label 'Minutes' and an empty light gray input field. The form then asks 'Have you finished?' with a dark blue button labeled 'No' that has a white square on its left side. At the bottom of the form is a large dark blue button with a white checkmark icon and the text 'Add Minutes'. The entire form is set against a dark background, and at the very bottom, the name 'John A' is displayed in white.

*Can add a book to
record minutes
against by
selecting book
from dropdown or
by entering a title
manually*

Mobile: Selecting Title

When select from dropdown will get scroll of book options as below. Highlight book and select Done.
